  Currently pursuing a Bachelor's degree in Electronics and Communication Engineering (ECE)

  Batch 2022-2026

- **PONNU MATRICULATION HIGHER SECONDARY SCHOOL**

  Completed schooling at Ponnu Matric School, Dharapuram.

  Completed in 2022

About Me

As a second-year student pursuing a Bachelor's degree in Electronics and Communication Engineering (ECE), I bring a unique blend of skills and expertise primarily focused on front-end development. Proficient in HTML, CSS, and React.js, I am dedicated to crafting engaging and user-centric web experiences. Alongside my front-end specialization, I possess fundamental knowledge in Java, C++, and C, complemented by a strong grasp of Object-Oriented Programming (OOP) principles.

Certificates

Internships :

- Undergone 1 week Internship Training on IOT conducted by Enthu Technology Solutions India Pvt Ltd, Coimbatore

Courses :

- Interfacing with the Aurdino
- Introduction to the IOT and Embedded Systems
- Fundamentals of Java

Achievements

- Successfully led the team in Project Shop 2.0, showcasing leadership abilities and project management skills.
- Created "Book My Show" independently, demonstrating proficiency in web development and design.
- Recognized for effective communication and leadership within the team environment.
- Completed an industrial course covering a range of programming languages and technologies, enhancing technical knowledge and skills.
- Demonstrated strong communication skills throughout project coordination and collaboration
